OVERVIEW

3rd-year Computer Science student specializing in front-end development and interactive web applications. Skilled in Java, Python, JavaScript, HTML/CSS, and responsive design, with a portfolio of demo-first projects showcasing UI polish and problem-solving. Eager to contribute creativity, technical expertise, and teamwork skills in a co-op or internship role.

PROJECTS

Lily Flower Animation <i>HTML, CSS, JavaScript</i> GitHub • Live Demo	2025
– Interactive lily with button-controlled bloom/close; layered transforms and keyframe timing for smooth motion.	
– Responsive layout and subtle shadows/gradients to showcase UI polish and animation fundamentals.	
Snake Game <i>JavaScript, HTML, CSS</i> GitHub • Live Demo	2024
– Canvas rendering loop with grid-based movement, collision detection, score tracking, and speed ramp.	
– Clean input handling and simple state machine for start/pause/game-over.	
Personal Portfolio Website <i>HTML, CSS, JavaScript, Bootstrap</i> GitHub	In Progress
– Building a responsive portfolio with project cards, modal previews, and contact form validation.	
– Deploying on GitHub Pages; optimizing for mobile (layout, tap targets, image sizing).	
Task Manager (CLI) <i>Python</i> GitHub	In Progress
– CLI tool for adding/listing/completing tasks; structured modules and argument parsing.	
– Persisting to local file (JSON/CSV) while planning update/edit workflow.	

EDUCATION

York University	Toronto, ON
<i>Bachelor of Computer Science (Honours), 3rd Year</i>	<i>Expected 2028</i>
